Message from the C H A I R M A N

Dear Shareholders,
Assala-mu-alaikum

I am delighted to present the Annual Report of S. Alam Cold Rolled Steels Ltd. for the year ended 30th June 2018 and once again to warmly welcome you all, on behalf of the Board of Directors, at the 18th Annual General Meeting of the company.

Despite the challenging market environment, we presented another year of sustained growth and strong results behind a sharpened focus on winning with our stakeholders and better utilization of available resources. The Business performance of your company under the able and far-sighted leadership and guidance of its Managing Director Mr. Mohammed Saiful Alam continued to be very satisfactory during the year under report. The revenue income for the year is Tk. 3,806,743,594, registered 55.39% growth from that of the previous year of Tk. 2,450,608,401, Alhamdulillah.

The post-tax consolidated profit earnings for the year under consideration is Tk.120,73,969 with the EPS of Tk. 1.25 whereas that of the previous year was Tk. 106,192,600 with the EPS of Tk. 1.11, noted a 13.69% growth. Considering profit for the year, the Board of Directors has recommended a dividend of 10%, (i.e. cash) on the paid up capital, for the year ended 30th June 2018 subject to approval of the shareholders at the AGM.

Your Directors as well as management of the company completely understand the importance of the sustainable brand building and are committed to strengthen the company's brand further; toward this, they have ensured strictly quality compliance for each of the products. We are also taking various initiatives to enhance brand recognition and popularity among the target customers. We expect to keep the graph of our company's prosperity upward, Insha Allah subject, however, to a conducive and business-friendly environment prevails and things remain positive.

The operation of S. Alam Power Generation Ltd. (SAPGL), a subsidiary of this company remained continually suspended due to higher fuel cost on the production while lower sales value in the market, comparing the electricity price in the country. In this

circumstance, the Directors of SAPGL emphasized on sourcing alternative fuel for the same and they have continued their best effort for getting permission for installation of gas line to the project for consumption in the production of electricity. The matter is under active consideration of the Authority. The Directors of the SAPGL firmly believe that they shall be able to get the requisite gas connection soon and shall be able to resume and continue its production, supply and distribution program.

Bangladesh Securities and Exchange Commission has issued a new Corporate Governance Code on June 03, 2018; therefore, your Board of Directors has adopted a new code of conduct in line with the Code. In addition, the Board has introduced a Nomination and Remuneration Committee along with other sub-committee of the Board with a view to evaluate the performance of the Directors and top executives of the company. I appreciate and hope this initiative will enhance the performance of the company.

Except that the Directors recommended 10% cash dividend subject to approval thereof in the 18th Annual General Meeting there is no other event affecting the values in the financial statements materially occurred after the balance sheet date.

Concluding my message, I would like to thank all of our esteemed Shareholders, Financial Institutions, Bankers, Regulatory bodies, Employees and Customers for their consistent support to the Company. I hope your continued support and patronization in the performance of the Company and also for the confidence you have reposed in the Company in its endeavors towards bigger achievements in days to come.

From the Desk of the MANAGING DIRECTOR

Bismillahir Rahmanir Raheem

My dear Shareholders,
Assala-mu-alaikum

Once again, I take the opportunity to welcome you at the 18th Annual General Meeting of the company.

This is my great pleasure and privilege in presenting you the Annual Report of S. Alam Cold Rolled Steels Ltd. for the year ended June 30, 2018.

In the FY 2017-18, the economy of Bangladesh witnessed a sharp advancement in many respects. Notably, the GDP growth of the country exceeded its budgetary target 7.4%, recorded a third consecutive year growth over 7%, riding on the agriculture sector by 4.19%, Industry grew by 12.06% and the services sector contributed 6.39% on the overall growth. Stable political situations, tolerable inflation, booming export, positive inflow of remittance, no major natural calamity have led to perform such a remarkable improvement in the reported year.

Bangladesh is considered one of Asia's leading emerging steel markets and the size of the market has been growing by more than 15% over the years. The demand for steel will inevitably grow in line with the country's economic and infrastructural development. Implementation of the government's huge infrastructural development plans has been driving the double digit growth rate in the country's steel industry and the growth is expected to persist for the next decade amid ambitious development initiatives by the Government. Industry insiders anticipate that the present per capita steel rebar consumption in Bangladesh is expected to grow from existing 45kg to 72 kg by 2022 while Bangladesh is far behind from neighbour country and world average.

The steel sector will grow further riding on Bangladesh's dense population, enhancing life expectancy rate, rural development, changing lifestyle, rapid construction of economic zones, large investments in infrastructures, booming

agriculture, thriving garments sector and an increase in energy supply with the import of LNG. We expect that your company's strong presence on the overall performance of the steel sector. Accordingly, we are also striving to keep the company's graph of prosperity upward by utilizing our core competencies and available resources.

Alhamdulillah, we are grateful to Almighty Allah that the year under report, your company passed a progressive year in many respects showing an upward trend in sales, profit, production efficiency and so on. The company performed well in all major financial indicators and registered 55% growth in sales revenue while 13.69% in EPS growth during the year. The Board of Directors of the company has recommended a 10% cash dividend for consideration at this Annual General Meeting by the shareholders.

To conclude my words, I express my heartfelt thanks and gratitude to you all for the support and faith you placed in us and in our accomplishments, the administration and the management of your company pledge its whole-hearted devotions and continued efforts to achieve our aspirations for the growth and prosperity of the Company and to safeguard your interest in the Company.

Directors' Report

Bismillahir Rahmanir Rahim
Dear Shareholders,

Your Directors have the pleasure in presenting their 18th Annual Report to you together with the Audited Financial Statements of the company for the year ended 30th June, 2018. The report has been prepared in compliance with Section no. 184 of the Companies Act 1994 and Bangladesh Securities and Exchange Commission Notification No: BSEC/CMRRCD/2006-158/207 /Admin/80 dated 03 June, 2018.

Financial Performance :

Key operating and financial results of the company and recommended appropriations for the year ended 30th June, 2018 with comparative figures for the previous years in summarized form are as under:

(Consolidated figures in Taka)

Particulars	2017-18	2016-17
Total Revenue	3,806,743,594	2,450,608,401
Gross Profit	581,915,664	327,648,336
Operating Profit	522,474,195	267,467,762
Profit before Tax	175,802,771	117,984,059
Profit After Tax	120,731,969	106,192,600
NAVPS	19.41	19.55
EPS	1.25	1.11
NOCPs	1.17	(18.39)

The comparison of the EPS between the Quarterly and the Annual Financial Statements are noted below:

Particulars	First Quarter	Second Quarter	Third Quarter	Final
2017-18	0.33	0.22	0.74	1.25
2016-17	0.19	0.31	0.42	1.11

Principal Business Activities :

The principal business activities of the company during the year under report continued to be the manufacturing and marketing of C. R. Steel Strips in coils/sheets and production of GP/CI Sheets in its NOF Type Continuous Galvanizing Line (CGL). The performance of your company as depicted herein relates therefore to these segments / products of the company.

Industry outlook and possible future developments in the industry :

The primary sector of steel industry is to produce raw materials such as billets, plates, rounds, and Hot Rolled (HR) Coils/Plates, for the secondary sector which produces value added items like angles, channels, wire rod, cold rolled (CR) coils / sheets and galvanized coils / sheets.

CR coils are mainly used for manufacturing of CI/GP Sheets which are largely and commonly used in roofing, slide cladding, making of water tanks and as fencing material.

Around 80% of the population of Bangladesh lives in rural areas. Due to high prices compared to their average income, most of its people are not in a position to construct their households by rod, cement and bricks, rather have to depend on low cost materials such as thatch, bamboo, CI Sheet etc. Around 30% households in rural and urban areas are constructed with CI/GP Sheet materials. As supportive material CI/GP Sheets are widely used in other civil constructions as well. Moreover, huge quantities of GP/CI Sheet are used annually by different Government bodies and agencies in carrying out various development activities each year on the basis of volume of the Annual Development Plan (ADP) of the Government of Bangladesh. Domestic demand of CI/GP Sheet is catered successfully by the CI/GP Sheet manufacturing industries of the country.

Being primary raw material for manufacturing of CI/GP Sheet, demand for CR Coil/Strips depends on the performance of the CI/GP Sheet manufacturing industries of the country. Dependence on CI/GP Sheet for household and other civil constructions could neither be stable nor be diminishing rather it would be increasing due to high spiralling prices of Rod, Cement and Bricks. GP/CI Sheet manufacturers integrated with CRC manufacturing facility shall be the clear gainer because easy access to raw materials (CRC) is one of the factors determining profitability of CI/GP Sheet manufacturing industry.

As producer of CR Coil/Strips since inception and as producer also of eco-friendly NOF type CI/GP Sheet since very recent past S. Alam Cold Rolled Steels Limited falls under secondary sector and has a strong presence in the domestic market as one of the leading producers thereof.

Future development as well as growth of the CR Coil manufacturing industry along with its recently commissioned eco-friendly NOF Type CI/GP Sheet manufacturing project, is therefore bright and healthy subject however to containing the adversities, if any, which arise to hamper economic activities for maintaining upward trend of its growth.

Segment-wise/ Product-wise Performance :

Details of Segment-wise/ Product-wise Performance are enclosed in Annexure-G

Risks and concerns :

Details of the risks and concerns and risk mitigation policy are attached in Annexure-H.

Discussion on Cost of Goods Sold, Gross Profit Margin and Net Profit Margin :

The detailed discussion on Cost of Goods Sold, Gross Profit Margin and Net Profit Margin disclosed in Annexure- F

Discussion on continuity of any Extra-Ordinary gain/loss :

There is no Extra-Ordinary gain / loss of the Company during the year under report therefore question for discussion of continuity thereof does not arise.

Dividend :

The Directors recommend 10% Cash dividend for the year ended 30th June, 2018 keeping in view the profit of the period and consistency in recommendation of its dividend taking, at the same time, into consideration of the fact that the Company had to invest in its subsidiary, S. Alam Power Generation Limited to meet its requirements, which the Company as its parent company financing from its own source as interest free temporary loan. All those shareholders, whose names would appear in the Depository Register of Members in the CDBL system at the close of business on the record date, shall qualify for the said Dividend.

Subsidiary company :

S. Alam Power Generation Limited was incorporated on April 09, 2009 with 70% of its Equity held by this company with object among others to set up, operate and run a captive and/or independent power plant to produce and supply electricity. Upon commissioning and testing of the plant, it started its commercial operation on and from 28 August 2016.

In compliance with the condition No. 2 of the Corporate Governance Code issued by the BSEC vide its Notification No. BSEC/ CMRRCD/ 2006-158/ 207/Admin/80 of June 03, 2018, Mr. Mohammad Ishaque, Independent Director of this holding Company, been nominated to be a Director on the Board of Directors of the said subsidiary of this company. Moreover, in order to enable the subsidiary of this Company to raise its number of Directors in compliance with the condition of the said Corporate Governance Code, your directors on the same day nominated Mr. Md. Osman Gani and Mr. Md. Abdullah Hasan for appointment as Directors representing this holding company in the said subsidiary company.

In addition, as required by the said Corporate Governance Code, minutes of the Board Meeting of the subsidiary company are placed regularly for review at the following Board Meeting of this holding company, and the affairs of the subsidiary company are also reviewed at such Board Meeting of this holding company.

The Statement, as specified in sub-section of section 186 of the Companies Act, 1994, of the company's interest as holding company in the subsidiary company - S. Alam Power Generation Limited, is attached hereto in compliance with requirements of law.

Subsequent events :

Nothing happened affecting financial position of the company since end of the financial year under review save and except that the Directors recommend for declaration of 10% cash dividend for the year ended 30th June 2018 subject to the approval thereof by the shareholders in the forthcoming Annual General Meeting.

Management Discussion and Analysis :

Global Economy :

According to the latest IMF World economic outlook, Global output is estimated at 3.9 percent for both 2018 and 2019. The anticipated growth rate for advanced economies is 2.4 percent and 2.2 percent for 2018 and 2019 respectively. More specifically, changes in US tax policy tend to promote economic activity, with the short-term impact in the United States mostly triggered by the investment response to corporate income tax cuts. Yet the primary force that will boost the overall global outlook over the period of 2018/19 is the rapid growth expected in emerging market and developing economies. This area's growth is estimated to be 4.7 percent in 2017 and is forecasted to reach 4.9 percent for 2018, while the IMF projects a further increase in growth to 5.0 percent in 2019. Emerging and Developing Asia is expected to maintain its robust performance, growing at 6.5 percent in 2018-19. Growth in China is projected to moderate from 6.9 percent in 2017 to 6.6 percent in 2018 and 6.4 percent in 2019, as regulatory tightening of the financial sector takes hold and external demand softens. However, geopolitical tensions and trade wars are the key challenges that may impact the global growth.

Bangladesh Economy :

The Bangladesh economy has been able to maintain sustained economic growth throughout the last decade registering more than 6% GDP Growth rate while 7.3% is expected for the year 2018-19. The per capita national income reached US\$ 1,751 in FY2018. On the production side, manufacturing led industry sector, and service sector, respectively, contributed 3.8 and 3.2 percentage points GDP growth in FY18, followed by 0.6 percentage points contribution from agriculture sector. Remittances increased at a healthy annual pace and these inflows have helped to reduce external imbalances, as reflected by a significant year-on-year narrowing of the current account deficit. Annual average headline inflation settled at 5.7 percent in September 2018,

non-food and core inflation slightly picked up, respectively, to 5.5% and 5.7%, while food inflation fell to 5.4%. Exports registered 13.39 percent growth while import grew by 27.45 percent in FY2017-18 comparing last year. Due to the surplus in Balance of Payment foreign exchange reserve at the end of September, 2018 stood at US\$ 31,957 million.

This fiscal year, economic growth is likely to slow but remain robust due to strong private consumption and investment. However, an uncertain political environment, risks of natural disasters, a shaky global trade environment and a struggling domestic banking system all cloud prospects. IMF projected GDP to expand 7.3% in FY 2019, which is expected to be achieved through the implementation of prudent fiscal management, effective application of cautious monetary policy, appropriate management of expenditure, sound implementation of the reform activities.

Global Steel Industry :

In 2017, the World crude steel production reached 1,689 million MT and showed a growth of 3.8% from the previous year. Crude steel production witnessed an increase across regions including Europe, America, Africa, the Commonwealth of Independent States (CIS), Middle East, Asia and Oceania. China, Japan, India, and the US continued to dominate crude steel production being the top four countries in crude steel production in 2016.

Outlook :

Global steel production is expected to continue witnessing robust growth in the near future in both developed and developing economies. Chinese mills will look to boost output ahead of winter (production) restrictions and take advantage of higher margins. The global steel demand is expected to reach 1,616.1 MT in 2018, an increase of 1.8% over 2017. In 2019, it is expected to grow by 0.7% to reach 1,626.7 MT. The World Steel Association forecasted its October, 2018 Short Range Outlook (SRO) that the global steel demand will reach 1,657.9 Mt in 2018, an increase of 3.9% over 2017. In 2019, it is forecast that global steel demand will grow by 1.4% to reach 1,681.2 Mt.

Bangladesh Steel Industry :

Bangladesh is one of Asia's leading emerging steel markets and has a growing need for raw materials and steelmaking technologies. IMF forecasts that average GDP growth in Bangladesh in the period from 2018 to 2020 will be more than 7%, which is significantly higher than that of many other emerging markets. The movement towards a

progressive national economy strongly depends on the how construction materials specially steels related industries have evolved and such products are readily available. Steel is a basic raw material for infrastructural development and multiple other uses. The demand for steel will inevitably grow in line with the country's economic and infrastructural development. Major buyers of mild steel and re-rolled products include individuals, government and institutional buyers in the real estate sector. Implementation of the government's huge infrastructural development plans have been driving the double digit growth rate in the country's steel industry and the growth is expected to persist for the next two decades amid ambitious development initiatives by the government.

Steel producers manufacture steel in several shapes according to demand from end consumers. Based on shape, the steel industry in Bangladesh can be categorized into two classes of products: long steel (MS rod/TMT bar) and flat steel (mainly CI sheet and CR coil, GP Sheet). In Bangladesh most construction steel can be traced to local production of long products, most of it in reinforcing steel, commonly known as M.S. Rods. Long Steel products are used in all industrial sectors, particularly in the construction and engineering industries. Different types of flat products include Plates, Hot Rolled Sheets, Cold Rolled Sheets and Coated Sheet.

The demand for steel industry is mainly driven by two factors; one is the implementation of the government's ADP plans and government's infrastructure building activities and the other is from the industrial and individual level demand especially for the real estate sector. Currently, the government projects account for nearly 40% of total steel consumption. As per the local industry leaders, present per capita steel rebar consumption in Bangladesh is only 45kg and this is expected to grow to 72 kg by 2022.

According to the World Steel Association, the apparent steel consumption of the country was

2.7 million MT in the FY 2014 compared to 2.4 million MT in the FY 2013. However, According to the industry insiders, the annual steel consumption of steel (both graded and non-graded) products now stands at roughly 7.0 million MT including long products and flat products - CR/GP sheet. The steel sector will grow further riding on Bangladesh's dense population, enhancing life expectancy rate, rapid construction of economic zones, large investments in infrastructures, booming agriculture, thriving garments sector and an increase in energy supply with the import of LNG.

Preparation of Financial Statements :

These consolidated Financial Statements have been prepared on going concern basis under the historical cost convention method and also prepared in compliance with requirement of BAS (Bangladesh Accounting Standards) / Bangladesh Financial Reporting Standards (BFRS) as adopted by the Institute of Chartered Accountants of Bangladesh (ICAB) as applicable in Bangladesh.

The details of accounting policies & estimates applied for the preparation of Financial Statements are described in note no. 3.00 of Audited Financial Statements. There are no changes in accounting policies & estimates for the fiscal year 2017-2018.

Financial Performance:

During the financial year ending 30th June, 2018, your Company witnessed a steady increase in profit comparing to the last year financial performance. The year gone, witnessed growth in the overall performance of the Company despite rationalization in steel prices and its impact on demand for steel. This can be attributed to the ability of the Company to manage business dynamically and respond with agility to changing macro environment.

Risk and mitigation:

As a matter of fact and like others in the business activities, your Company is also exposed to an increasing degree of risks that can adversely affect the functioning of the Company. The management is however vigilant at all times to identify and mitigate such potential risks.

The risks that may affect functioning of the Company include, but are not limited to:

- Seasonal fluctuations as well as inflationary pressures affecting demand of the company's products;
- Adverse economic conditions and environment;
- Increase in cost of raw materials, transportation and storage;
- Attrition of key staff and technical personnel as well as labour relations;
- Changes in VAT, Tax and other laws creating regulatory pressures;
- Political uncertainty and sluggish business situation in the country.

The preparation of financial statements required the management to make some forward looking estimates and assumptions within the meaning of applicable laws and speculations for accounting of certain items of the

reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, depreciation and amortization, taxes, reserves and contingencies. Actual result may differ from those estimates, expressed or implied. Detailed risks and concerns discussed in Annexure-H.

Future planning:

Total sales, during the financial year 2017-18, has increased more than 50% comparing to the last financial year despite several challenges and it is expected that growth in sales will be continued in the upcoming year also. Apart from this, if the commercial operation of its subsidiary- S. Alam Power Generation Ltd. can be resumed subject to the approval of gas connection or sourcing fuel at lower cost and congenial business atmosphere remains favorable more revenue may be added in line with normal operation of the company.

Discussion on Cost of Goods Sold, Gross Profit Margin and Net Profit Margin:

Particulars	Year ended on 30.06.2018 (Consolidated)	Year ended on 30.06.2017 (Consolidated)	Increase/(Decrease) based on Turnover of the year under reports
Cost of Goods Sold	84.71% of Turnover	86.63% of Turnover	(1.92%)
Gross Profit Margin	15.29% of Turnover	13.37% of Turnover	1.92%
Net Profit Margin	3.17% of Turnover	4.33% of Turnover	(1.16%)

(a) Cost of Goods Sold:

Compared to that of the previous year, the Cost of Goods sold of the year under report witnessed a decrease by 1.92% on the Turnover of the year. Reason for such decrease during the period under report is attributable to the significant stock of lowest cost of imported raw material H.R Coil as compared to those of the previous year.

(b) Gross Profit Margin:

On comparison with that of the previous year Gross Profit Margin in relation to the Turnover of the year under report recorded 1.92% increase. Reason is attributable primarily to the significant increased of Turnover as compared to that earlier year. The Management had with its best endeavours and efforts been able however to attain the increase in the GP Margin.

(c) Net Profit Margin:

Net Profit Margin in relation to the Turnover of the period under report, recorded 1.16% decrease on comparison with that of the previous year for the reasons to increase finance cost charges as well as charges of significant amount of current tax provision during the period.

Risks and Concerns

Annexure-H

As with all investments, investors should be aware that risks are associated with an investment in the Company. Investment, Investors should carefully consider all the risks and uncertainties associated to the company along with all the information provided in this report before taking decision to invest in shares of SACRSL.

Raw material acquisition & Price of raw material

The main raw material, Hot Rolled (HR) Strips are internationally traded commodities imported from abroad. The availability of the raw materials mainly depends on the importing countries' increasing trend of consumption and policy of the respective exporting countries. Non-availability of raw materials will directly affect the production of SACRSL.

Management Perception

The main raw material of the project is adequately available in different countries and more countries are coming in this industry as a raw material supplier. Moreover, the Company has already built up good business relationship with big foreign suppliers. Simultaneously company keeps in hand bulk stock of raw materials. The enhancement of price of imported raw material is beyond the control of the company.

Industry Risk:

01. Profitability may reduce

The company is operating in a highly competitive industry with low profit & highly sensitive to the market. Moreover the company faces competition from a number of private sector mills those are found to be very aggressive in the market. Inability of offering competitive products will hinder the company's growth potential.

Management perception

The company has successfully accessed the market till date and is working on offering new and better quality products at competitive terms. Moreover the group's track record for operating in the low profit and highly market sensitive environment establishes its capability.

02. New Entrants may enhance competition

New entrants of similar/higher scale may push the company in a competitive scenario.

Management perception

Implementation of similar project generally have a lead time of two years and before the earliest entrant the company will be able to consolidate its both financial as well as market position. Furthermore, with the track record of S. Alam and its market reputation it will be very difficult for new comers to make inroads into the quality steels market. Moreover, Steel is a higher

capital-intensive industry and therefore, barriers to entry are high. Hence, first-mover's advantage is big and S. Alam, with its past experience and performance, will enjoy this advantage.

Market and technology related Risk:

(i) Market Risk

Major competitors in this sector are PHP Cold Rolling Mills Limited, Abul Khair Steel Products Limited, KYCL coil Industries Limited. None of them are utilizing their 100% capacity and also not consuming 100% of their production. So it can be inferred that if these companies start to utilize 100% of their capacity and reduces the prices of their product then it will add business risk to SACRSL.

Management Perception

Currently there is a gap between demand and supply of CI Sheets in our country. On the other hand demand for CI Sheets is increasing drastically day by day. In this situation chance of excessive competition is almost zero. Moreover the company's brand is well accepted in the market for its quality.

(ii) Technology related Risk

The production facilities of SACRSL are based on high-tech machineries. So any invention of new and more cost effective technology may make the company outperformed by its competitors.

Management Perception

Management of the company is aware of recent technological developments in the steel world and keeps their employees upto- date on those by providing necessary training.

Interest rate risk

Interest rate risk is concerned with borrowed funds of short term and long-term maturity. Volatility in money market and increased demand for loans/investment funds raise the rate of interest. High rate of interest enhances the cost of fund of a company and could adversely affect the business and future financial performance.

Management perception

In order to manage this risk and overcome it, the company shall exercise good management in its cash flows, coupled with continued strength in sales and marketing. The management of the Company is always aware of interest rate, which is concerned to the cost of fund of the Company. The Management prefers in procuring of the long-term fund with minimum fixed interest rate and the short-term fund with reasonable competitive rate. On the other hand management of the Company is emphasizing on equity based financing.

Exchange Rate Risk

Any adverse fluctuation in the exchange rate of Taka may increase the costing of raw materials or any machinery related parts.

Management Perception

Appropriate and responsible hedging mechanisms are employed by SACRS in the past in case of significant taka devaluation in order to keep the cost minimum and same will be followed in future. However, if the price of the US dollar appreciates too sharply against the BDT, this will be a nationwide phenomena experienced by the whole industry. In such a scenario, there will be a market adjustment in end product prices.

Potential or existing government regulations

Changes in tax and VAT laws, their upward revision could adversely impact results of operations and cash flows amongst other things. And situation will get worst when such alteration/revision is made suddenly.

Management Perception

Like all democratically elected governments, the Government of Bangladesh also holds commitment for economic emancipation of the nation, which can be achieved through maintaining sustainable industrial growth. Therefore, it is most unlikely that Government will initiate any fiscal measure having adverse effect upon industrialization.

Changes in Environmental Laws and Regulations

S. Alam Cold Rolled Steels Ltd. is subject to environmental laws and regulation which limits the discharge of pollutants into the air water and established standards for the treatment, storage and disposal of solid and hazardous wastes. These laws and regulations require investment of capital and other expenditure for ensuring complain. The operation of plant entail inherent risk of environmental damage and the company may incur liabilities in the future arising from the discharge of pollutants into the environment or waste disposal or hazardous material handing practices.

Management Perception

SACRSL is highly conscious about the environment. None of the raw materials used by the company is toxic in nature or hazards to health. It uses ETP – Effluent Treatment Plant-a water treatment plant - with a view to prevent water pollution. Moreover, S. Alam Cold Rolled Steels Ltd. workers are provided with hand gloves, masks and safety boots, as part of normal precautionary measures. Exhaust fans have been installed in the factories for better and adequate ventilation whilst high capacity dust collectors minimize floating around of dust particles inside the factories. The company has not received any health-related complaints from its worker so far.

Potential changes in global or national policies

Changes in government policy by increasing duty on billets will enhance cost of raw materials vis-à-vis production.

Management perception

The government might increase duty on billets - the principal raw material of the proposed unit. Duty increases will affect all billet based mills operating in the country and hence local prices of rods from imported billets will also go up to match the enhanced cost.

Operational risk

Strikes, non-cooperation movement by the opposition parties, extortion and unforeseen political dispute may affect the operations or productivity of the company.

Management Perception

Any natural calamity is beyond human control. However company's all assets have a comprehensive Industrial All Risk coverage by a renowned insurer. So, products of the company would have steady and increased demand under any adverse situation. These sorts of disturbances are very often in Bangladesh and business community is habituated with these problems.

Risk associated with recovery of debts:

Non-recovery of debts has a direct negative impact on the cash flow of the organization and may cause difficulties in smooth business operation.

Management Perception:

S. Alam Power Generation Ltd. will supply electricity to S. Alam Cold Rolled Steels Ltd. and its sister concerns. The management of S. Alam Power Generation Limited will take several steps to ensure the revenue collection from S. Alam Cold Rolled Steels Ltd. such as establishing a utility department, setting up main meter, establishing company wise sub meter, preparing monthly company wise bill etc.

Risk of disruption due to Natural disaster, Political unrest etc.:

Any damage occurred due to natural disasters like Cyclone, Tide, Earthquake and Political unrests like civil disorder may hamper normal performance of power supply, which is beyond control of the company.

Management Perception:

As there is no doubt that the plant is very expensive and the management has experience to handle such risks and will ensure insurance from a first class insurance company.

REPORT OF THE AUDIT COMMITTEE

Under condition 5.6 of the BSEC Notification # SEC/CMRRCD/2006-158/207/Admin/80 dated 03-06-2018.

The Honorable Shareholders,

It gives me great pleasure to present, once again, the annual report of the Audit committee for the year ended 30th June 2018.

The business and financial operations of the Company are conducted and exercised through an established internal control system by an independent internal audit team which verifies and follows-up the activities of the internal control procedures and reports to the Audit Committee. Through monitoring the choice of accounting policies / principles and overseeing the financial reporting process and in ensuring good monitoring system within the business by its review on regular basis of the effectiveness and adequacy of internal audit function and by continuous monitoring of the Internal Control Risk management process, the Committee assisted the Board of Directors in ensuring that the financial statements reflect true and fair view of the state of affairs of the company. The Committee also oversee hiring and performance of the external auditors. As part of its oversight process, the Chairman of the Committee, held regular individual discussions with the external auditors, the CFO, the Head of Internal Audit (Internal Control & Compliance), the management and head of concerned departments, and keeps the Committee regularly informed about the results of such discussions. Moreover, the Chairman of the Committee briefs regularly to the Chairman of the Board of Directors about the activities of the Audit Committee. The Committee reviewed also the compliance mechanisms and systems of the company to ensure that the company satisfies all legal and regulatory requirements and that the Code of Conduct is being adhered to. It is not the duty of the Audit Committee to (a) plan or conduct audits, (b) prepare the Company's financial statements, or (c) determine or certify that the Company's financial statements and disclosures are complete and accurate and are in accordance with rules and regulations. These are the responsibilities of the management and of the external auditors.

It is reported that through four of its Meetings held during the year ended 30th June 2018 and subsequent period to date of this Report, the Committee reviewed the financial statements as at 30th June 2018 and quarterly financial statements prepared for statutory purposes as at 30th September 2017, 31st December 2017, 31st March, 2018. For its review, the members of the Committee were provided with comprehensive documentation for the year ended 30th June 2018, some of which were in draft form, including the annual financial statements and the auditors' report thereon, drafts of the Directors' report and that of the Audit Committee as well as the proposal made by the Board of Directors on the appropriation of profits, draft Price Sensitive Information for dissemination and the draft Notice of the 18th Annual General Meeting of the Company. Following intensive review of the documents and discussion with the management and the external auditors, the Committee recommended that the Board of Directors should approve the annual Financial Statements along with the other documentations as also reviewed by the Committee in connection therewith and relevant thereto. In addition to those documents, the Audit Committee reviewed the financial statements in particular the investments made, of the S. Alam Power Generation Limited, a subsidiary of this Company, for year ended 30th June 2018. Moreover, in their oversight role the Committee reviewed with the management the un-audited financial statements for the 1st Quarter ended 30th September 2018 along with the draft Financial Information extracted there-from for publication in the Press and recommended that the Board of Directors should approve the same and comply with requirements of law in this behalf. The Committee also conducted a self-evaluation of its activities in the same Meeting. It did not result in any need for action with regard to the Committee's activities or with regard to the content or procedure of the Meetings.

The Audit Committee in the context aforesaid reports as follows:

- (i) In our oversight role, we review on regular basis the effectiveness and adequacy of internal control system as well as the financial records on the basis of findings of the internal audit team;
- (ii) We believe that our such review provided a reasonable basis for our opinion that proper and sufficient care had been taken for maintenance of adequate accounting records for safeguarding the company's interest and for preventing and detecting frauds and other irregularities; and
- (iii) We did not find, during the year under report, any material deviation, discrepancies or any adverse findings / observations in the following areas of reporting:
 - conflict of interests;
 - suspected or presumed fraud or irregularity or material defect in the internal control system;
 - suspected infringement of laws, including securities related laws, rules and regulations; and
 - any other matter requiring immediate disclosure to the Board.

The Audit Committee further reports that:

- (i) we have reviewed along with the management the financial statements for the year ended 30th June 2018 before submission thereof to the board for approval, and we found adequate arrangement to present a true and fair view of the activities and financial status of the Company; and
- (ii) we have, in addition thereto, reviewed
 - (a) the statement of significant related party transactions for the year ended 30th June 2018 submitted by the management and found that such transactions were made on arm's length basis in the ordinary course of business; and
 - (b) the financial statements, in particular the investments made, of the S. Alam Power Generation Limited, a subsidiary of this Company, for year ended 30th June 2018.

**INDEPENDENT AUDITORS' REPORT
TO THE SHAREHOLDERS OF
CONSOLIDATED FINANCIAL STATEMENTS
S. ALAM COLD ROLLED STEELS LIMITED AND ITS SUBSIDIARY**

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **S. Alam Cold Rolled Steels Limited** and its subsidiary, **S. Alam Power Generation Limited**, which comprise the consolidated statement of financial position as at **30 June 2018**, and the consolidated statement of Profit or Loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Bangladesh Financial Reporting Standards (BFRS), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations. This responsibility includes: designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matter

Without qualifying our opinion we would like to draw attention to the fact disclosed in note 5.01 to the Financial Statements.

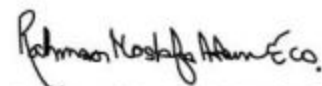

Opinion

In our opinion, the Financial Statements prepared in accordance with Bangladesh Accounting Standard (BAS) & Bangladesh Financial Reporting Standards (BFRS), give a true and fair view of the state of S. Alam Cold Rolled Steels Limited and its Subsidiary S. Alam Power Generation Limited as at 30 June 2018, and of the results of its operations and its cash flows for the year then ended and comply with the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations.

Further to our opinion in the above paragraph, we state that:

- (a) we have obtained all the material information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- (b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books and returns;
- (c) the consolidated statement of financial position and consolidated statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account; and
- (d) the expenditure incurred was for the purposes of the Company's business.

03.01 Basis of Consolidation

03.01.01 Subsidiary

The subsidiary is the entity controlled by S. Alam Cold Rolled Steels Limited. Control exists S. Alam Cold Rolled Steels Limited has the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiary are included in the consolidated financial statements upon establishment of that control until the date that control ceases. The accounting policies of subsidiaries have been changed when it is necessary to align them with the policies adopted by S. Alam Cold Rolled Steels Limited.

03.01.02 Non - Controlling Interests

The group measures non - controlling interests in the subsidiary at their proportionate share of the subsidiary's identifiable net assets which are generally at fair value adjustments to non - controlling interests are based on a proportionate amount of the net assets of the subsidiary.

03.01.03 Transactions eliminated on consolidation

Intra - group balances and transactions, and any unrealised income and expenses arising from intra - group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses, if any, are eliminated in the same way as unrealised gains, but only to the extent there is no evidence of impairment.

03.02 Property, plant and equipment

Items of property, plant and equipment are stated at cost less accumulated depreciation thereon.

03.02.01 Recognition and measurement

The cost of an item of property, plant and equipment comprises its purchase price, import duty and non-refundable taxes (after deducting trade discount and rebates) and any other cost directly attributable to the acquisition of the assets. The cost of self constructed/installed assets includes the cost of materials, direct labour and any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the intended manner and the cost of dismantling and removing the items and restoring the site on which they are located.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of the property, plant and equipment and is recognised in profit or loss.

03.02.02 Subsequent costs

The cost of replacing or upgrading part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are expensed as incurred.

03.02.03 Depreciation

Items of property, plant and equipment are depreciated from the date they are available for use or in respect of self constructed assets, from the date that the asset is completed and ready for use. Significant parts of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is calculated on diminishing balance method over the estimated useful lives of each parts of property, plant and equipment. Depreciation is generally recognized in profit or loss unless the amount is included in the carrying amount of another assets. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Land is not depreciated. Depreciation is charged on addition when the assets are available for use or ready for use or from date of acquisition. In case of disposal of fixed asset, depreciation is charged up to date of disposal. The principal annual rates are as follows:

<u>Assets</u>	<u>Rates (%)</u>
Land and land development	Nil
Internal Road and Embankment	10% - 20%
Buildings	5% - 10%
Plant and Machinery	10%
Equipment and appliances	10%
Furniture and Fixtures	10%
Luffing Crane and Jetty Construction	15%
Coil Cart	10%
Motor Vehicle	20%
Interior Decoration	15%

Depreciation on following assets has been calculated on the basis of capacity utilization of capital machinery:

<u>Particulars</u>	<u>Capacity utilization</u>	
	<u>CR Coil Plant</u>	<u>NOF Plant</u>
Factory Building (including Leased Assets)	69.63%	28.35%
Capital Machinery	69.63%	28.35%
Factory equipment	69.63%	28.35%
Generator	69.63%	28.35%
Work Roll	69.63%	28.35%
Luffing Crane and Jetty construction	69.63%	28.35%
Coil Cart	69.63%	28.35%

Depreciation methods, useful lives and residual values are reassessed at the reporting date and adjusted if appropriate.

03.03 Capital work in progress

Property, Plant and Equipment under acquisition is accounted for as Capital work-in-progress until acquisition is completed and measured at cost.

03.04 Inventories

Inventories are measured at lower of cost and net realisable value. The cost of inventories is calculated based on the weighted average method and includes expenditure incurred in acquiring these inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition in accordance with BAS-2. In case of manufactured inventories and work-in-process, cost includes an appropriate share of production overheads based on normal operating capacity. Details of valuation methods are stated below:

<u>Category</u>	<u>Valuation</u>
Finished Goods -	Finished Goods are valued at Cost or Net Realisable Value whichever is lower
Work-in-process-	At Prime cost + Proportionate Factory Overhead.
Raw materials -	Based on weighted average method.
Raw Materials (In bond items)-	At Book Value.
Store items -	Based on weighted average method.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and selling expenses.

Stock in transit represents the cost incurred up to the reporting date against the items that were not received at factory till that date.

03.05 Revenue Recognition

Revenue from sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and rebates, if any. In compliance with the requirements of BAS 18: "Revenue", revenue is recognized only when:

- i) The products are invoiced and dispatched to the customers;
- ii) Interest income is accrued on a time basis by reference to the principal outstanding at the effective interest applicable.

03.06 Trade receivables

Trade receivables are initially recognised at cost which is the fair value of the consideration given in return. After initial recognition, these are carried at cost less impairment losses, if any, due to uncollectibility of any amount so recognised.

There is no fixed company policy regarding provision for impairment loss on debtors if, any receivables are not realized within the credit period.

03.07 Transactions with Affiliated companies

These represents balance amounts due to / from affiliated companies which are derived from short term loan, short term financial arrangement availed from/paid to affiliated companies as and when required to meet working capital and sale of goods from time to time. These are interest free and there is no fixed term of repayment. These balances are unsecured but considered good and realisable.

03.08 Advances, deposits and prepayments

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deductions, adjustments or charges to other account heads such as property, plant and equipment, inventory or expenses.

Deposits are measured at payment value.

Prepayments are initially measured at cost. After initial recognition, prepayments are carried at cost less charges to consolidated statement of profit or loss and other comprehensive income.

03.09 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short term fixed deposits with banks.

03.10 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Non-derivative financial assets

The Company initially recognises loans and receivables on the date that they are originated. All other financial assets are recognised initially on the date at which the company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial assets are transferred.

Non-derivative financial assets are classified into the following categories: financial assets at fair value through profit or loss, held to maturity financial assets, loans and receivables and available-for-sale financial assets.

Financial assets at fair value through profit or loss

A financial asset is classified as at fair value through profit or loss if it is classified as held for trading or is designated as such on initial recognition. Financial assets are designated as at fair value through profit or loss if the company manages such investment and makes purchase or sale decisions based on their fair value in accordance with the company's documented risk management or investment strategy. Attributable transactions costs are recognised in profit and loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein which take into account and dividend income are recognised in profit or loss.

Held-to-maturity financial assets

If the company has the positive intent and ability to hold debt securities to maturity, then such financial assets are classified as held-to-maturity. Held-to-maturity financial assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortized cost using the effective interest method, less any impairment losses.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

Loans and receivables comprise cash and cash equivalents, loans and trade and other receivables.

(a) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at bank which are available for use by the company without any restriction.

(b) Trade receivables

Trade receivables represent the amounts due from customers for delivering goods or rendering services. Trade receivables are initially recognised at cost which is the fair value of the consideration given in return. After initial recognition these are carried at amortised cost less impairment losses due to uncollectibility of any amount so recognised.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale and are not classified in any other categories of financial assets. Generally available-for-sale financial assets are recognised initially at fair value plus any directly attributable transaction costs and subsequent to initial recognition at fair value and changes therein other than impairment losses are recognized in other comprehensive income and presented in the fair value reserve in equity. When an investment is derecognized the gain or loss accumulated in equity is reclassified to profit or loss.

Available-for-sale financial assets comprise equity securities and debt securities.

Non-derivative financial liabilities

The company initially recognises financial liabilities on the date that are originated.

The company derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

The company classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value less directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortized cost using the effective interest method.

Other financial liabilities comprise loans and borrowings, bank overdrafts and trade and other payables.

(a) Share capital (ordinary shares)

Ordinary shares are classified as equity.

(b) Trade and other payables

Trade and other payables represent the amounts due to customers for receiving goods or services. Trade and other payables are initially recognised at cost which is the fair value of the consideration. After initial recognition these are carried at amortised cost.

(c) Other liabilities

Other liabilities represents the amounts due to various parties for receiving services. These are initially recognised at cost which is the fair value. After initial recognition these are carried at amortised cost.

03.11 Employee benefit schemes

The company have gratuity and termination benefit scheme, but has a plan to create a provident fund in which both company and employees will contribute an equal amount.

03.12 Workers' profit participation fund

Appropriate provision has been made for Workers' Profit Participation Fund and Workers' Welfare Fund as per provisions of law.

03.13 Provisions and contingencies

A provision is recognised in the financial statements if, as a result of a past event, the company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation.

Contingencies arising from claim, lawsuit, etc. are recorded when it is possible that a liability has been incurred and the amount can reasonably be measured.

03.14 Earnings Per Share (EPS)**Basic Earnings:**

This represents profit for the year attributable to ordinary shareholders. As there is no preference shares, non-controlling interest or extra ordinary items, the net profit after tax for the year has been considered fully attributable to the ordinary shareholders (refer to Note-34 to the Financial Statements).

Diluted Earnings per share:

No diluted earnings per share is required to be calculated for the year as there is no scope for dilution during the year under audit.

03.15 Finance income and finance costs

Finance income comprises interest income on funds invested that are recognised in profit or loss.

Finance costs comprise interest expenses on borrowing that are recognised in profit or loss as and when incurred.

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized using the effective interest method.

03.16 Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency (BDT) at exchange rates at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at reporting date are re-translated into Bangladesh Taka at the exchange rates ruling at the reporting date. Non-monetary assets and liabilities denominated in foreign currencies, stated at historical cost, are translated into Bangladesh Taka at the exchange rate ruling at the date of transaction. Foreign exchange differences arising on retranslation are recognized in profit or loss.

03.17 Income tax expenses

Tax expenses comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss to the extent it relates to items recognised directly in equity or in other comprehensive income.

Current tax:

The Company was allowed tax holiday for the period of five years from the month of commencement of commercial production i.e. 01 February 2004 vide National Board of Revenue's Order ref. 11(398) Anu – 1/2004/7364(2) dated 24.07.2004. The period of tax holiday of the Company expired on 31 January 2009. Current tax is the expected tax payable on the taxable income or loss for the year, using the tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous year.

Deferred tax:

Deferred tax is recognised in compliance with BAS 12: Income taxes, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and amount used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the authority on the same taxable entity.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

03.18 Impairment

Non-derivative financial assets

Financial assets are impaired if objective evidence indicates that a loss event has occurred after initial recognition of the assets and that the loss event had a negative effect on the estimated future cash flows of that assets that can be estimated reliably.

Non financial assets

The carrying amounts of the company's property, plant and equipments are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the property, plant and equipment's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses, if any, are recognized in the profit or loss.

03.19 Leases

03.19.01 Finance Lease

Leases in terms of which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Minimum lease payments made under finance lease are apportioned between the finance expense and the reduction of outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant rate of interest on the remaining balance of the liability.

03.19.02 Operating lease

Leases that are not finance lease are considered as operating leases and the leased assets are not recognised in the company's Consolidated Statement of Financial Position. Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease.

03.19.03 Determining whether an arrangement contains a lease

At inception of an arrangement, the company determines whether such an arrangement is or contains a lease. This will be the case if the following two criteria are met.

- i) The fulfillment of the arrangement is dependent on the use of a specific asset/ or assets; and
- ii) The arrangement contains a right to use the assets(s).

At inception or on reassessment of the arrangement the company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values.

03.20 Segment reporting

Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, head office expenses and tax assets and liabilities.

04.00 New Standards and interpretations not yet adopted

All new standards and interpretations adopted by the Institute of Chartered Accountants of Bangladesh (ICAB) during the period beginning on or after 01 October 2015, which have significant effect on the consolidated financial statements of the company are duly complied with.

Detail of Property, Plant & Equipment and Depreciation as on 30 June 2018 are shown in the notes 5.02.

05.01 The company started commercial operation of 17MW captive power plant in the month of August 2016. But immediately after the commencement of commercial operation, fuel price has been increased by the authority. As a result, electricity that would have been produced by use of high cost fuel will not be feasible. Under such a situation, the management decided not to produce power at such a high cost and exerted efforts for getting permission to get gas line installation to the project for production of electricity. So, the machineries require further development for consumption of cheap fuel like gas. As development is required, borrowing cost of these machineries has capitalized considering the para 20 to 23 of BAS 23 Borrowing cost. Hence interest on loan has been capitalized and added to the machineries.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRS), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations. This responsibility includes: designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

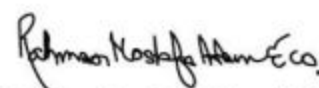

Opinion

In our opinion, the Financial Statements prepared in accordance with Bangladesh Accounting Standard (BAS) & Bangladesh Financial Reporting Standards (BFRS), give a true and fair view of the state of the company's affairs as at **30 June 2018** and of the results of its operations and its cash flows for the year then ended and comply with the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations.

Further to our opinion in the above paragraph, we state that:

- (a) we have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- (b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books and returns;
- (c) the statement of financial position and the statement of Profit or Loss and other comprehensive income dealt with by the report are in agreement with the books of account; and
- (d) the expenditure incurred was for the purposes of the Company's business.

03.01 Property, plant and equipment

Items of property, plant and equipment are stated at cost less accumulated depreciation thereon.

03.01.01 Recognition and measurement

The cost of an item of property, plant and equipment comprises its purchase price, import duty and non-refundable taxes (after deducting trade discount and rebates) and any other cost directly attributable to the acquisition of the assets. The cost of self constructed/installed assets includes the cost of materials, direct labour and any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the intended manner and the cost of dismantling and removing the items and restoring the site on which they are located.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of the property, plant and equipment and is recognised in profit or loss.

03.01.02 Subsequent costs

The cost of replacing or upgrading part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are expensed as incurred.

03.01.03 Depreciation

Items of property, plant and equipment are depreciated from the date they are available for use or in respect of self constructed assets, from the date that the asset is completed and ready for use. Significant parts of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is calculated on diminishing balance method over the estimated useful lives of each parts of property, plant and equipment. Depreciation is generally recognized in profit or loss unless the amount is included in the carrying amount of another assets. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Land and Land Development is not depreciated. Depreciation is charged on addition when the assets are available for use or ready for use or from date of acquisition. In case of disposal of fixed asset, depreciation is charged up to date of disposal. The principal annual rates are as follows.

<u>Assets</u>	<u>Rates (%)</u>
Land and land development	Nil
Internal Road and Embankment	10% - 20%
Buildings	5% - 10%
Plant and Machinery	10%
Equipment and appliances	10%
Furniture and Fixtures	10%
Lifting Crane and Jetty Construction	15%
Coil Cart	10%
Motor Vehicle	20%
Interior Decoration	15%

Depreciation on following assets has been calculated on the basis of capacity utilization of capital machinery:

<u>Particulars</u>	<u>Capacity Utilization</u>	
	<u>CR Coil Plant</u>	<u>NOF Plant</u>
Factory Building (including Leased Assets)	69.63%	28.35%
Capital Machinery	69.63%	28.35%
Factory equipment	69.63%	28.35%
Generator	69.63%	28.35%
Work Roll	69.63%	28.35%
Luffing Crane and Jetty construction	69.63%	28.35%
Coil Cart	69.63%	28.35%

Depreciation methods, useful lives and residual values are reassessed at the reporting date and adjusted if appropriate.

03.02 Capital work in progress

Property, Plant and Equipment under acquisition is accounted for as Capital work-in-progress until acquisition is completed and measured at cost.

03.03 Inventories

Inventories are measured at lower of cost and net realisable value. The cost of inventories is calculated based on the weighted average method and includes expenditure incurred in acquiring these inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition in accordance with BAS-2. In case of manufactured inventories and work-in-process, cost includes an appropriate share of production overheads based on normal operating capacity. Details of valuation methods are stated below:

<u>Category</u>	<u>Valuation</u>
Finished Goods -	Finished Goods are valued at Cost or Net Realisable Value whichever is lower.
Work-in-process-	At Prime cost + Proportionate Factory Overhead.
Raw materials -	Based on weighted average method.
Raw Materials (Inbond items)-	At Book Value.
Store items -	Based on weighted average method.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and selling expenses.

Stock in transit represents the cost incurred up to the reporting date against the items that were not received at factory till that date.

03.04 Revenue Recognition

Revenue from sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and rebates, if any. In compliance with the requirements of BAS 18: "Revenue", revenue is recognized only when:

- i) The products are invoiced and dispatched to the customers;
- ii) Interest income is accrued on a time basis by reference to the principal outstanding at the effective interest applicable.

03.05 Trade receivables

Trade receivables are initially recognised at cost which is the fair value of the consideration given in return. After initial recognition, these are carried at cost less impairment losses, if any, due to uncollectibility of any amount so recognised.

There is no fixed company policy regarding provision for impairment loss on debtors if, any receivables are not realized within the credit period.

03.06 Transactions with Affiliated companies

These represents balance amounts due to / from affiliated companies which are derived from short term loan, short term financial arrangement availed from/paid to affiliated companies as and when required to meet working capital and sale of goods from time to time. These are interest free and there is no fixed term of repayment. These balances are unsecured but considered good and realisable.

03.07 Advances, deposits and prepayments

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deductions, adjustments or charges to other account heads such as property, plant and equipment, inventory or expenses.

Deposits are measured at payment value.

Prepayments are initially measured at cost. After initial recognition, prepayments are carried at cost less charges to profit or loss.

03.08 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short term fixed deposits with banks.

03.09 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Non-derivative financial assets

The Company initially recognises loans and receivables on the date that they are originated. All other financial assets are recognised initially on the date at which the company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial assets are transferred.

Non-derivative financial assets are classified into the following categories: financial assets at fair value through profit or loss, held to maturity financial assets, loans and receivables and available-for-sale financial assets.

Financial assets at fair value through profit or loss

A financial asset is classified as at fair value through profit or loss if it is classified as held for trading or is designated as such on initial recognition. Financial assets are designated as at fair value through profit or loss if the company manages such investment and makes purchase or sale decisions based on their fair value in accordance with the company's documented risk management or investment strategy. Attributable transactions costs are recognised in profit and loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein which take into account and dividend income are recognised in profit or loss.

Held-to-maturity financial assets

If the company has the positive intent and ability to hold debt securities to maturity, then such financial assets are classified as held-to-maturity. Held-to-maturity financial assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortized cost using the effective interest method, less any impairment losses.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

Loans and receivables comprise cash and cash equivalents, loans and trade and other receivables.

(a) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at bank which are available for use by the company without any restriction.

(b) Trade receivables

Trade receivables represent the amounts due from customers for delivering goods or rendering services. Trade receivables are initially recognised at cost which is the fair value of the consideration given in return. After initial recognition these are carried at amortised cost less impairment losses due to uncollectibility of any amount so recognised.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale and are not classified in any other categories of financial assets. Generally available-for-sale financial assets are recognised initially at fair value plus any directly attributable transaction costs and subsequent to initial recognition at fair value and changes therein other than impairment losses are recognized in other comprehensive income and presented in the fair value reserve in equity. When an investment is derecognized the gain or loss accumulated in equity is reclassified to profit or loss.

Available-for-sale financial assets comprise equity securities and debt securities.

Non-derivative financial liabilities

The company initially recognises financial liabilities on the date that are originated.

The company derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

The company classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value less directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortized cost using the effective interest method.

Other financial liabilities comprise loans and borrowings, bank overdrafts and trade and other payables.

(a) Share capital (ordinary shares)

Ordinary shares are classified as equity.

(b) Trade and other payables

Trade and other payables represent the amounts due to customers for receiving goods or services. Trade and other payables are initially recognised at cost which is the fair value of the consideration. After initial recognition these are carried at amortised cost.

(c) Other liabilities

Other liabilities represents the amounts due to various parties for receiving services. These are initially recognised at cost which is the fair value. After initial recognition these are carried at amortised cost.

03.10 Employee benefit schemes

Currently, the company have gratuity and termination benefit scheme, but has a plan to create a provident fund in which both company and employees will contribute an equal amount.

- 03.11 Workers' profit participation fund**
Appropriate provision has been made for Workers' Profit Participation Fund and Workers' Welfare Fund as per provisions of law.
- 03.12 Provisions and contingencies**
A provision is recognised in the financial statements if, as a result of a past event, the company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation.
Contingencies arising from claim, lawsuit, etc. are recorded when it is possible that a liability has been incurred and the amount can reasonably be measured.
- 03.13 Earnings Per Share (EPS)**
Basic Earnings:
This represents profit for the year attributable to ordinary shareholders. As there is no preference shares, non-controlling interest or extra ordinary items, the net profit after tax for the year has been considered fully attributable to the ordinary shareholders (refer to Note-34 to the Financial Statements).
Diluted Earnings per share:
No diluted earnings per share is required to be calculated for the year as there is no scope for dilution during the year under audit.
- 03.14 Finance income and finance costs**
Finance income comprises interest income on funds invested that are recognised in profit or loss.
Finance costs comprise interest expenses on borrowing that are recognised in profit or loss as and when incurred.
Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized using the effective interest method.
- 03.15 Foreign currency transactions**
Transactions in foreign currencies are translated to the functional currency (BDT) at exchange rates at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at reporting date are re-translated into Bangladesh Taka at the exchange rates ruling at the reporting date. Non-monetary assets and liabilities denominated in foreign currencies, stated at historical cost, are translated into Bangladesh Taka at the exchange rate ruling at the date of transaction. Foreign exchange differences arising on retranslation are recognized in profit or loss.
- 03.16 Income tax expenses**
Tax expenses comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss to the extent it relates to items recognised directly in equity or in other comprehensive income.
Current tax:
The Company was allowed tax holiday for the period of five years from the month of commencement of commercial production i.e. 01 February 2004 vide National Board of Revenue's Order ref. 11(398) Anu – 1/2004/7364(2) dated 24.07.2004. The period of tax holiday of the Company expired on 31 January 2009. Current tax is the expected tax payable on the taxable income or loss for the year, using the tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous year.
Deferred tax:
Deferred tax is recognised in compliance with BAS 12: Income taxes, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and amount used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the authority on the same taxable entity.
A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.
- 03.17 Impairment**
Non-derivative financial assets
Financial assets are impaired if objective evidence indicates that a loss event has occurred after initial recognition of the assets and that the loss event had a negative effect on the estimated future cash flows of that assets that can be estimated reliably.
Non financial assets
The carrying amounts of the company's property, plant and equipments are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the property, plant and equipment's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses, if any, are recognized in the profit or loss.
- 03.18 Leases**
- 03.18.01 Finance Lease**
Leases in terms of which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Minimum lease payments made under finance lease are apportioned between the finance expense and the reduction of outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant rate of interest on the remaining balance of the liability.
- 03.18.02 Operating lease**
Leases that are not finance lease are considered as operating leases and the leased assets are not recognised in the company's Statement of Financial Position. Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease.
- 03.18.03 Determining whether an arrangement contains a lease**
At inception of an arrangement, the company determines whether such an arrangement is or contains a lease. This will be the case if the following two criteria are met.
i) The fulfillment of the arrangement is dependent on the use of a specific asset / or assets; and
ii) The arrangement contains a right to use the assets(s).
At inception or on reassessment of the arrangement the company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values.
- 03.19 Segment reporting**
Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, head office expenses and tax assets and liabilities.
- 04.00 New Standards and interpretations not yet adopted**
All new standards and interpretations adopted by the Institute of Chartered Accountants of Bangladesh (ICAB) during the period beginning on or after 01 October 2015, which have significant effect on the financial statements of the company are duly complied with.

40.00 Financial Risk Management

The Company has exposure to the following risks from its use of financial instruments:

- (i) Credit risk;
- (ii) Liquidity risk;
- (iii) Market risk.

Risk management framework

The company management has overall responsibility for the establishment and oversight of the Company's risk management framework. The company's management policies are established to identify and analyse the risks faced by the Company to set appropriate risk limits and controls and to monitor risks and adherence to limit. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the company's activities.

40.01 Credit risk

Credit risk is risk of financial loss if a customer fails to meet its contractual obligations which arises principally from the Company's receivables from customers and investment in securities.

40.01.01 Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows-

	Amount in Taka	
	30 June 2018	30 June 2017
Accounts Receivables	2,310,460,484	2,735,466,960

Directors' Report to the Shareholders:

Dear Shareholders,

It is a matter of great pleasure for your Directors in presenting their 10th Annual Report along with the audited Accounts and the Auditors' Report thereon for the year ended 30th June 2018.

Your Directors report that though 17MWe captive power plant commenced its commercial operation on 28 August 2016 with expectation the Fuel price in the country would witness a steep fall keeping in line with the fall of fuel prices in the international market in consequence whereof we shall be able to produce electricity at a very competitive price by use of fuel. The authority on the contrary made just a little adjustment of the fuel price. As a result, electricity that would be produced by use of high cost fuel will be very costly and the consumers shall not purchase electricity at such a high price, your Directors therefore considered it wise and in the interest of the stakeholders, not continue with production of electricity for the time being, rather exerted their best efforts for getting permission for installation of Gas line to the project for consumption in production of electricity. In this connection a delegation from the Karnaphuli Gas Distribution Company Limited had recently visited our project site for assessment of our requirements of Gas for consumption in production of electricity. This matter is under active consideration of the Authority. Your Directors are hopeful to get the requisite Gas connection very soon to enable our project to resume and continue with its production, supply and distribution of electricity. In addition, we anticipate Government's initiatives to import LNG shall create a new horizon for Bangladesh Industrial Sector.

As your Company did not embark upon any commercial activities during the year under report, your Directors did not recommend any dividend for approval by the valued shareholders in the 10th Annual General Meeting of the Company.

Being a subsidiary of S. Alam Cold Rolled Steels Limited, a stock exchange listed company, certain conditions of the Corporate Governance Code (CGC) issued by the Bangladesh Securities & Exchange Commission vide its BSEC/CMRRCD/2006-158/207/Admin/80 dated 03 June 2018 are made applicable to this subsidiary company on comply basis and in its compliance, the number of directors of this company has been raised from two to five by inclusion of three nominees of the holding company, as Directors of the company. They are considered for the purpose of retirement by rotation Mr. Mohammed Abdullah Hasan is the Directors to retire by rotation this year. Being eligible, he offer himself for re-election in the ensuing Annual General meeting of the Company.

In addition thereto, Minutes of this subsidiary company and its affairs are regularly reviewed in the following Board Meeting of the SACRSL, and the Audit Committee of the SACRSL reviewed all the financial statements of your company drawn and made by the Company during the year ended 30/06/2018, in particular the investments made by this subsidiary company.

M/s. Rahaman Mostafa Alam & Co, Chartered Accountants, current auditors of the Company, retire. They have been auditors of the Company consecutively for one year simultaneous to our parent company SACRSL. Being a subsidiary of the SACRSL, we had to appoint same auditors as that of the parent company, for audit of accounts of the company for the next term. Your Directors therefore propose the honorable shareholders for appointment of auditors of our company for the next term in the manner aforesaid.

Your Directors take this opportunity to record its acknowledgement of the continued guidance and assistance from the management of S. Alam Cold Rolled Steels Limited, the holding company, to make your Company successful.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Bangladesh Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matter

Without qualifying our opinion we would like to draw attention to the fact disclosed in note 6.01 to the Financial Statements.

Opinion

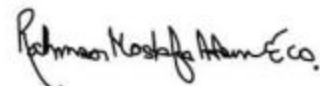

In our opinion, the Financial Statements prepared in accordance with Bangladesh Accounting Standard (BAS) & Bangladesh Financial Reporting Standards (BFRS), give a true and fair view of the state of the company's affairs as at 30 June 2018 and of the results of its operations and its cash flows for the year then ended and comply with the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations.

Further to our opinion in the above paragraph, we state that:

In accordance with the Companies Act 1994, we also report the following:

- (a) we have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

04.04 Advances, deposits and prepayments

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deductions, adjustments or charges to other account heads such as property, plant and equipment, inventory or expenses.

04.05 Finance income and cost

Finance income on funds invested that are recognised in profit or loss on accrual basis.

Finance expenses on borrowing that are not directly attributable to the acquisition, construction or production of a qualifying assets are recognized in profit or loss as and when incurred.

Finance expenses on borrowing that are directly attributable to the acquisition, construction or production of a qualifying assets are capitalized under effective interest method.

04.06 Cash and cash equivalents

Cash and cash equivalents include deposits held at call with banks and other short term fixed deposits with banks.

04.07 Impairment

04.07.01 Financial Assets

Financial assets are impaired if objective evidence indicates that a loss event has occurred after initial recognition of the assets and that the loss event had a negative effect on the estimated future cash flows of that assets that can be estimated reliably.

Financial assets not classified as at fair value through profit or loss, loans, receivables and investment in an equity accounted investee are assessed at each reporting date to determine whether there is objective evidence that it is impaired.

Impairment losses on available for sale financial assets are recognized by reclassifying the losses accumulated in the fair value reserve to profit or loss.

04.07.02 Non Financial Assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the recoverable amount of the asset is estimated. An impairment loss is recognized if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

04.08 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

04.08.01 Non-derivative financial assets

The Company initially recognises loans and receivables on the date that they are originated. All other financial assets are recognised initially on the date at which the company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial assets are transferred.

Financial assets are classified into the following categories: financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial assets.

04.08.02 Financial assets at fair value through profit or loss

A financial asset is classified as at fair value through profit or loss if it is classified as held for trading or is designated as such on initial recognition. Financial assets are designated as at fair value through profit or loss if the company manages such investment and makes purchase or sale decisions based on their fair value in accordance with the company's documented risk management or investment strategy. Attributable transactions costs are recognised in profit and loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein which take into account and dividend income are recognised in profit or loss.

04.08.03 Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at fair value less any impairment losses.

Loans and receivables comprise cash and cash equivalents, loans and trade and other receivables.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at bank which are available for use by the company without any restriction.

04.08.04 Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale and are not classified in any other categories of financial assets. Generally available-for-sale financial assets are recognised initially at fair value plus any directly attributable transaction costs and subsequent to initial recognition at fair value and changes therein other than impairment losses are recognized in other comprehensive income and presented in the fair value reserve in equity.

Available-for-sale financial assets comprise equity securities and debt securities.

04.09 Non-derivative financial liabilities

The company initially recognises financial liabilities on the date that are originated.

The company derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

The company classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value less directly attributable transaction cost. Subsequent to initial recognition, these financial liabilities are measured at amortized cost.

Other financial liabilities comprise loans and borrowings, bank overdrafts and trade and other payables.

04.10 Employee benefit schemes

Currently, the company does not have any employee benefit scheme, but has a plan to create a provident fund in which both company and employees will contribute an equal amount.

04.11 Provisions

A provision is recognised in the financial statements if, as a result of a past event, the company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation.

04.12 Earnings Per Share (EPS)

Basic Earnings:

This represents profit for the year attributable to ordinary shareholders. As there is no preference dividend, non-controlling interest or extra ordinary items, the net profit after tax for the year has been considered fully attributable to the ordinary shareholders (refer to note - 22 to the Financial Statements).

Diluted Earnings per share:

No diluted earnings per share is required to be calculated for the year as there is no scope for dilution during the year under audit.

04.13 Income tax expenses

Tax expenses comprises current tax . Current tax is recognised in profit and loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax:

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using the tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous year.

04.14 Leases

04.14.01 Finance Lease

Leases in terms of which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Minimum lease payments made under finance lease are apportioned between the finance expense and the reduction of outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant rate of interest on the remaining balance of the liability.

04.14.02 Operating lease

Leases that are not finance lease are considered as operating leases and the leased assets are not recognised in the company's Statement of Financial Position. Payments made under operating leases are recognised in Statement of Comprehensive Income on a straight line basis over the term of the lease.

05.00 New Standards and interpretations not yet adopted

All new standards and interpretations adopted by the Institute of Chartered Accountants of Bangladesh (ICAB) during the period beginning on or after 01 October 2015, which have significant effect on the financial statements of the company are duly complied with.

Detail of Property, Plant & Equipment and Depreciation as on 30 June 2018 are shown in the note 6.02.

6.01 The company started commercial operation of 17MW captive power plant in the month of August 2016. But immediately after the commencement of commercial operation, fuel price has been increased by the authority. As a result, electricity that would have been produced by use of high cost fuel will not be feasible. Under such a situation, the management decided not to produce power at such a high cost and exerted efforts for getting permission to get gas line installation to the project for production of electricity. So, the machineries require further development for consumption of cheap fuel like gas. As development is required, borrowing cost of these machineries has capitalized considering the para 20 to 23 of BAS 23 Borrowing cost. Hence interest on loan has been capitalized and added to the machineries.
